

Sustainable SHORES

Sustainability isn't just a buzzword - it's the Exmouth Way. Let's all tread lightly and keep Exmouth special for generations to come.

Let's lead the way

We were proud to win Climate Response of the Year 2024 for delivering meaningful initiatives. But we're not stopping there. With your help, we can make Exmouth one of Britain's greenest towns.

Leave no trace

Small, thoughtful actions make a big difference. Please pick up after yourself and your pets, use water and energy mindfully, and recycle or reuse where you can.

Stay local

Just visiting? Choosing local food, shops, and experiences helps protect jobs, reduce travel impact, and gives you a true taste of Exmouth. We think you'll love what you discover.

Slow things down

Exmouth is perfect for low-carbon adventures. So leave the car behind, breathe in the sea air and remember to take your time. Enjoy a mellow, mindful way to travel.

Eat well

Good for you and the planet, Exmouth's food scene is full of delicious veggie and vegan options, seasonal ingredients, and minimal packaging; thoughtful choices that make a difference.

Go wild

From outstanding bird life on the estuary to the dramatic Jurassic Coast, nature takes centre stage here; and gently reminds us why our care and protection matter.

We're in this together

Let's live and share the Exmouth Way. Local or visiting, by choosing kindness and consideration, together we will make our shores truly sustainable.
